

IMPORTANT!!!

Per the State of New Jersey - All students 59 months and younger must receive a flu vaccine by **December 31st**! There is no grace period! Once your child receives the vaccine, please bring in record of proof from your doctor that your child received the vaccine. **If your child does not receive the vaccine by December 31st, they may not attend school until they do.** This means they will not be able to come back to school on January 3rd without proof of receiving the shot. If you have any questions or concerns please see Mrs. Gail.

Thank you!!
